

Surrey Youth League

Photo Examples

To save photos being rejected, I have put together some examples of the main rejection issues we are having.

This is the type of image we need, it has minimal background and is easily visible as a clear likeness to the player however it would need to be cropped as currently the face is too small.

We cannot accept images that do not look directly at the camera.

Funny face pictures may look amusing but they don't copy well to team sheets as they do not show a correct likeness to the player

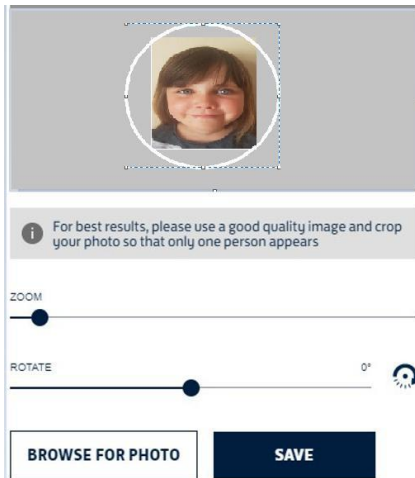

Pictures with pets, may look cute but they again will be rejected as we need to see just the player. (This includes all pets, not just baby turkeys)

Cropping family snaps will not work as we need to only see the player no other people within the shot.

Surrey Youth League

Please ensure the image fills the whole of the circle, if the image is too small like this one, the system will create a border and the image will be rejected

No hats, glasses, ear pods etc can be worn in the image unless they are for medical/religious reasons, as you can see these stop identification of the player.

Please ensure pictures are current, if you have a picture like the child on the left and then turn up with a man like on the right, questions may be asked on Sunday when team checks are made.
